A World University in the Light of Science and Modernity

Mersin University was founded in 1992 in Mersin, a city with a deep-rooted historical past, natural and cultural richness, where the Mediterranean and the Taurus Mountains meet. Our university is an educational institution that educates associate, bachelor, master and doctorate level students with its experienced staff, constantly developing infrastructure and highly qualified academic activities.

With its Projects, Open to Development in All Areas

Our university, in both academic and administrative units, within the framework of TS EN ISO 9001 Quality Management System in the fields of education, training, scientific research and social services to be effective, efficient, competitive, to focus on superior performance, international recognition and reputation, has adopted continuous improvement with its stakeholders.

Distinguished Academic Staff

Mersin University, which provides education in various branches of health, nature, education and human sciences, fine arts, sports and music, has an experienced and experienced teaching staff.

Accreditation

As a reflection of the quality understanding in our university, great importance is attached to accreditation studies. Many of our faculties and departments are accredited by accreditation organizations in their respective fields.

Modern Campus Intertwined with Nature

With its unique architectural design, modern arrangements and green nature, our students experience the privilege of Mersin University in both the education and social fields in the campuses of Çiftlikköy, Yenışehir and Tece.

Large Facilities

Students of Mersin University have the opportunity to develop themselves in scientific, cultural and sportive ways with the facilities offered both on campus and in the city. Hizmet Our library has a modern and rich infrastructure.

- ✓ Modern and rich infrastructure in our library with international standards of service
- ✓ Modern accomodation facilities for our students with a for 7500 students in Ciftlikkoy Campus
- ✓ Cultural centers for social and cultural activities, amphitheater, indoor and outdoor sports areas for sporting activities, semi-Olympic swimming pool
- ✓ Supervised, healthy and satisfying meals in cafeterias, cafes and restaurants
- ✓ Active student communities in many areas
- ✓ Mersin University Hospital and Dentistry Hospital with health services
- ✓ Supporting the individual, social, educational and professional development of our students through the Psychological Counseling and Guidance Center
- ✓ Art and cultural activities in the city and university throughout the year
- ✓ Many services that will make our students's lives easier, such as free scholarships, free on-campus transportation

Support to New Projects and R & D Activities

TÜBİTAK ARDEB Office, New Generation Science and Innovation Center, Technopark, Mersin Young Entrepreneurship Center, also known as Enterprise Port, Advanced Technology Education Research and Application Center, enable the young people to realize their new business and projects with their laboratories and application areas.

International University

With its students coming from many countries of the world, it is taking firm steps towards becoming an internationally recognized university with its education at national and international level.

Education and Career Abroad

Mersin University offers Erasmus and Mevlana programs for both students and staff in various countries of the world.

Contemporary Education

Mersin University, the first implementer of distance education in technical programs, applies this model in some associate and graduate programs. With this training model made over the Internet, education is provided to large masses. In addition, our Center for Continuing Education offers a world-class education program based on lifelong learning.

Barrier-Free University

With the aim of "Barrier university", Mersin University creating education and living areas for training people with disabilities, has received several awards for his work on behalf of all the renovations and improvements unobstructed life and has been proposed as a model for other universities in Turkey.

A Family with its Graduates

Our graduates successfully transfer their knowledge and experience gained in our university to their future lives and enjoy the privilege of "Mersin Üniversitesi" identity in different regions and business fields.
